## EXPERIENCE

### Philips, Panama City — Finance Intern(Automation Engineer)

August 2025 - September 2025

- Automated the Balance Sheet data retrieval and organization while communicating with the finance team extensively to make sure the software is easy to use and accessible to everyone.
- Created a template that makes use of various technologies like Excel, VBA for macros, DAX Studio, Python in Excel, and Power BI dataflows for remote access to the data and pulling it into Excel.

### Patel y Bhana Abogados, Panama City - Software Developer

May 2023 - September 2023

- Spearheaded development of a website along a graphic designer
- Used Visual Studio Code with a React.js environment to create a maintainable code that was pushed to github for deployment

### Maracuya Services, Panama City — Software Developer - Intern

May 2023 - September 2023

- Learned about collaborative coding by participating in a fast paced coding and maintenance environment
- Created very simple SQL databases and small features with help from more experienced developers

## EDUCATION

### York University, Toronto — Bachelor's Degree-Transferred

September 2022 - April 2024

Bachelor of Arts, Honours, Information Technology

### Ontario Tech University, Toronto — Bachelor's Degree
